

3 X 4 MISSION MAGNUM SANDMASTER

Compact and adaptable

The **SANDMASTER** centrifugal pump includes virtually all the features of the **MAGNUM I**.

The **SANDMASTER** is more compact in design and can be adapted for hydraulic motor drive (as illustrated in the drawing). These added features make the **SANDMASTER** ideal for use in applications such as oilfield frac trucks. It can be used for blending and pump charging service.

Wherever space is at a premium and prime mover options are limited, the **SANDMASTER** is the pump of choice.

SANDMASTER with a hydraulic motor adapter.
